

Image unlearning, across seeds and devices

Capabilities compared in the WIPE-OUT 2 presentation · September 2026

Framework	Domain	Multi-seed	Multi-GPU	Multi-precision
OpenUnlearning	LLMs	Not shown	Yes	Yes
MUBox	Image classification	Not shown	Not shown	Not shown
ERASURE	Image classification	Yes	Not shown	Not shown
Deep Unlearn	Image classification	Yes	Not shown	Not shown
SUPREME	Image classification	Yes	Yes	Yes

“Not shown” means support was not identified in slide 2; it does not mean impossible.

Capability comparison, not measured speed or unlearning quality. Definitions and sources:
